

Trusted Assessor Training

Introducing DLF's new Trusted Assessor Training. Starting over 20 years ago, the DLF has been a leading provider of Trusted Assessor Training since its inception. Following extensive consultation and testing we have now redesigned our courses to meet the needs of today's learners. These practical, hands-on training courses are nationally accredited by the Open College Network; to provide training for community staff in the assessment, fitting and use of daily living equipment. Accredited staff are able to work with the public to assess and recommend suitable equipment enabling more people to live independently.

- 🔗 Nationally accredited course
- 🔗 Two days of practical training using the latest equipment
- 🔗 The course combines hands-on, written tasks and formal assessment
- 🔗 Over twenty years of experience delivering the course
- 🔗 Open and tailored options
- 🔗 The course can be tailored to your specific requirements, talk to us to find out more

For more information on the **Trusted Assessor Training** or any other DLF Courses, please call **0207 432 8008**, email **training@dlf.org.uk** or visit **www.dlf.org.uk/training**

You can book onto one of our open courses which run regularly at our training centres throughout the UK or by arrangement at a location suitable to you.

We offer a range of courses levels 1 – 4 as follows:

Level One

Designed for helpline staff, customer services staff or triage teams. The course covers small aids such as washing and dressing aids and referral pathways.

Level Two

This option is designed for drivers, handy-people or technicians who do not currently prescribe equipment as their main role. The course covers minor adaptations and teaches the learner to recognise an equipment need and how to measure for these.

Level Three

Aimed at therapy assistants, OTs and social workers who typically already assess for minor aids. The learner will feel more confident in holistic assessment and the measurement and prescription of minor aids.

Level Four

OTs and more experienced trusted assessors will find this course an excellent next step. They will learn how to measure and prescribe stair lifts, level access showers and ramps.
